EXPERIENCE

12/2023- 05/2024

Frontend Development Intern

Key responsibilities: Developing and maintaining apps and websites using HTML5, CSS3, Bootstrap, JavaScript and Angular. Git for version control

EDUCATION

Faculty of Computer Science and Engineering – 2019 - present

Brainster's Frontend Academy – 2022-2023

PROJECTS

I have done a few projects while i was an intern at VestelGlobal, such as recreating templates from FIGMA designs using HTML5, CSS3, Bootstrap and JavaScript. And developing an internal application used for booking seats in your office and reserving inventory. Me and a few colleagues did the design in FIGMA and developed the project using Angular for Frontend and C# for backend. I have also done some projects by myself, which are uploaded on my GitHub.

SKILLS

HTML5, CSS3, Bootstrap, Tailwind, GIT, JavaScript, TypeScript, React, NextJS, Angular, C++, C#.
